**FIRST SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT  
PURSUANT TO 37 CFR §1.97(c)**

COMMISSIONER OF PATENTS AND TRADEMARKS

Washington, D.C. 20231

Sir:

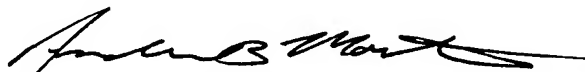

This first Supplemental Information Disclosure Statement is being filed pursuant to 37 CFR §1.97(c), after the mailing of the first Official Action, but before the mailing date of either a Final Action or Notice of Allowance. Payment of the fee required by 37 CFR 1.17(p) is enclosed so that the Disclosure Statement will be considered. Pursuant to 37 CFR §1.97, regarding the filing of an Information Disclosure Statement, the Applicant hereby submits the following in compliance with the duty of disclosure as set forth in 37 CFR §1.56. The art provided herewith is art which has come to the Applicant's attention subsequent to the filing of the last Information Disclosure Statement.

Information or art known to the Applicant and having an extent of relevance to the present application has been listed on PTO Form 1449 attached hereto. It includes one (1) patent. The Applicant has employed PTO Form 1449 for the purpose of convenience of the Office and the Examiner.

No representation is made that a specific search has been made, that the information is pertinent to the claimed subject matter, that the information represents the only or the best information or that the information is non-cumulative of the art of record. The Applicant does not admit that any of the information he has provided is necessarily prior to his invention but rather that it is information of which he is aware and that he believes should be provided to the Office in fulfillment of his duty of disclosure.

Based upon the differences between the Applicant's invention as compared to the teachings and disclosures of the art provided, it is the Applicant's belief that his invention is neither anticipated nor suggested by these references. In the event further clarification of the art may be deemed necessary, the undersigned attorney would welcome a telephone call from the Examiner. Should the Examiner hold a contrary opinion regarding relevance of any of the patents discussed herein, it will readily be reconsidered in light of any rejection which may be made.

Respectfully submitted,

---
